Roberts & Hammack, Inc.  
Boren-Barbera A State #1-P 6-12-34

No subsequent report of the plugging of this well was ever filed.

We estimate the plugging procedure was as following from Eddie Seay's Field Trip Report dated March 20, 1980.

CIBP @ 9100 ft.  
100' plug at 6220--6120  
4½" pulled from 6170 ft.  
100' plug at 5510 ft.  
100' plug at 4100 ft.  
100' plug at 1087-1187 ft.  
Recovered estimated 1027 ft of 8 5/8"  
100 ft plug at 400--300 ft.  
10 sx with marker at surface.

A handwritten signature in cursive script, appearing to read "Jerry Sexton".

Re: Boren-Barbera A State #1-P  
Section 6, T12S, R34E

Gentlemen:

We are in the process of attempting to clear up all of the unreleased plugged wells in our district and find that the above well is still carried under your company in our files. In 1979 we received a request for a change of operator from Roberts & Hammack to Vista Resources, Inc. but we were unable to approve this change because they did not have an approved plugging bond. Vista Resources was advised we would be unable to approve the change of operator until they had an approved plugging bond on file with our Santa Fe office. No bond was ever obtained by Vista Resources Inc.

In view of the above, you are the last operator of record and are still liable for cleanup of the location. Our recent inspection indicates the well has been plugged; however, the following surface cleanup needs to be completed before it can be released.

*11/12/86*  
*We believe that this work has been completed &  
the lease is ready for inspection.*

*Roberts & Hammack Inc.*

*John W. Finley, acct.*

*11-19-86 Location inspected by Jack Griffin,  
OCO, Field Rep, & location was OK.*

Gentlemen:

We are in the process of attempting to clear up all of the unreleased plugged wells in our district and find that the above well is still carried under your company in our files. In 1979 we received a request for a change of operator from Roberts & Hammack to Vista Resources, Inc. but we were unable to approve this change because they did not have an approved plugging bond. Vista Resources was advised we would be unable to approve the change of operator until they had an approved plugging bond on file with our Santa Fe office. No bond was ever obtained by Vista Resources Inc.

In view of the above, you are the last operator of record and are still liable for cleanup of the location. Our recent inspection indicates the well has been plugged; however, the following surface cleanup needs to be completed before it can be released.

- 1) Pits levelled
- 2) Anchors cut
- 3) Cellar filled

We regret that we have let this matter go unresolved for such a long period of time. However, if you would see that the above three things are taken care of we will be able to release this location. When the cleanup has been completed, please sign and return a copy of this letter and we will recheck the location for release.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton  
Supervisor, District I

JS/ED

The above work has been completed and location is ready for inspection.

Gentlemen:

Division Forms C-104 indicating a change of ownership and C-103 outlining a proposed plugging program for the Boren-Barbera "A" State Well No. 1 located in Unit P of Section 6, T-12-S, R-34-E, will be held without approval until we receive notification from our Santa Fe office that a plugging bond with Vista Resources, Inc. as principal has been filed and approved.

As of this date, Roberts & Hammack, Inc. is the operator of record for the well and all regulatory forms must be filed in that name.

Yours very truly,

OIL CONSERVATION DIVISION

Gentlemen:

Attached is a copy of our letter dated October 24, 1979, regarding the Boren-Barbera State A Well No. 1 located in Unit P of Section 6, T-12-S, R-34-E, Lea County, New Mexico.

To date, we have had no reply, nor have we received notification from our Santa Fe office that the required plugging bond has been filed.

Please give this matter your immediate attention.

Yours very truly,

OIL CONSERVATION DIVISION

SUBJECT: FINAL INSPECTION OF PLUGGED WELL

<u>Boren-Barbera State A #1</u>	<u>P-6-12-34</u>	<u>10-19-79</u>
Lease Name and Well #	S-T-R	Date Plugged

Gentlemen:

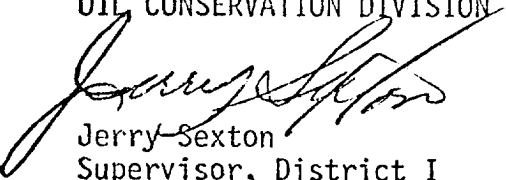

A plugging report has been filed on the above-captioned well, but according to our records, you have not notified this office that the location is ready for final inspection.

If the location has been cleaned and is ready to be inspected, please sign and return a copy of this letter. If the location has not been cleaned, please do so as soon as possible, and notify this office by returning a copy of this letter when the location is ready to be inspected.

We feel that you have had an adequate amount of time since the plugging of this well in which to get the location cleaned and ready for release and we request your cooperation in this matter.

Very truly yours,

OIL CONSERVATION DIVISION
