Re: Maxwell #2-E
Section 6, T13S, R38E
SWD-315

Gentlemen:

We have provisionally approved the conversion of the above-referenced well for disposal of produced water. It is noted that your packer is set at 8510 feet which is considerably more than the 100 feet above the top perforation allowed by SWD-315.

To bring this well into compliance with the provisions of SWD-315, you are hereby requested to reset the packer as required by SWD-315 by July 1, 1988. We feel any further delay would not be prudent operations.

Please notify this office prior to commencing this work and file a subsequent C-103 certifying the work has been completed.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I

JS/ED/ed

cc: Donnie Hill

P.S. Please file Monthly Disposal Reports, Form C-120-A from time disposal commenced through current month.
