Gentlemen:

This letter is in response to your letter of February 4, 1988, in which you give notice of the cancellation of the intention to recomplete the above-mentioned well.

As outlined on the enclosed C-103, the work suggested was completed in a timely manner. It was the unintentional failure on my part to follow up with a subsequent report that created this situation.

I wish to apologize for all inconveniences caused and request that if any other requirements need be fulfilled, please contact me at your earliest opportunity.

Very truly yours,

James Kovar
