RE: Tenneco State Well #1  
Unit H of Section 8,  
T14S, R34E

Dear Mr. Runyan:

In answer to your letter of May 14, 1979 and our conversation of May 15, 1979, I personally cut off the tiedowns on the above mentioned well. The leveling of both the burn pit and battery pit was done by Troy Fort according to his specifications.

Please release the plugging bond on this well.

Sincerely,

Leonard Caffey *Leonard Caffey*
