

Memo

11/16/89

From
EVELYN DOWNS
*Oil Conservation Staff
Specialist*

* *To* WHOM IT MAY CONCERN

David Trejo with OCD data processing dept. in Santa Fe advised it was not necessary to post to ID report the recompletion by directionally drilling to a different bottomhole location since the well was still completed in the same pool and the new BHL was still within the 160-acre proration unit *even though the unit letter of the BHL is N instead of L.*
