I, Bobby Cooper, being of lawful age,
do state that I am employed by Halliburton Company in the capacity
of Carenter, and that on the 17th day of
August, 19 71, Halliburton Company performed
a cementing service for the purpose of cementing the production
(production,
protection, surface) string of casing in Well Number
1, Simons Lease, located in Lea
County, NEW MEXICO for Western States Production Company
(customer)

Information provided me by the customer, his agent or
representative, states that the above string of casing was size
4 1/2" O. D., set in 7 7/8" inch drilled hole, and that
casing depth set was 10,050 feet.

Cement and admixes used were: 600 cu ft Pozmix Cement mixed 1, 1
with 2% Halliburton Gel, 3/4 of 1% CFR-2, 11# salt /sk.

Based upon the above information, according to my cement
tables, I have calculated that the above volume of cement will fill
up an annular height of 3.995 feet between 4 1/2" casing and
(size) (size)
7 7/8" hole.
