APPROVED FOR 12 MONTH PERIOD  
ENDING 10/6/98

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

The Federal 10 is uneconomical to produce from current perforations, Asher is currently evaluating an offer to purchase this lease from another oil company. If we don't sell this well because of the current activity going on in this immediate area, we will re-perforate this lease & produce it from another zone, if another zone does exist we will be able to evaluate our well with the wells that are currently being re-perforated in this area, therefore we ask that this lease status be changed on this well to shut-in, until we can make all of our evaluations, Thanks for your consideration

14. I hereby certify that the foregoing is true and correct
