Dear Sir:

In reference to your letter of June 16, 1980 (copy enclosed), I can find no record of the Lowe #1 as belonging to Roger C. Hanks in any of our production files. Therefore, I believe there has been an error made.

Sincerely,

Ann Canterbury,
Production Clerk

AC:mlb

The subject well never produced. It was drilled to a TD of 11,632' in late 1975, and plugged and abandoned in early 1976.

In addition to seeing that the location has been cleared and levelled in accordance with our Rules and Regulations, it will be necessary for you to submit Form C-105, Well Record, and two copies of a notarized tabulated list of the deviation surveys, as pointed out in our Form Letter dated March 29, 1976.

Please give this matter your immediate attention.
