Re: Field #1-G
Sec. 25, T12S, R37E
Lea County, NM

Gentlemen:

Our Santa Fe office indicates that you have asked for the release of the plugging bond on the above referenced well.

However, we must inform you that an April 10, 1986, inspection of the plugged well location indicates that we cannot release the well until some additional work is done.

We have your letter dated May 29, 1985, stating that you made an agreement with the land owner, Robert Field, to clean up the location. In order for this type of agreement to be valid, we must have a written statement from the landowner for our records.

Our April 10th inspection indicates the following needs to be done before we can release the plugging of this well.

- 1) Cellar filled
- 2) Reserve pit filled and levelled
- 3) Junk removed from location
- 4) Anchors cut and removed
- 5) Well data stencilled on dryhole marker

When the above has been complied with we will be happy to release the well.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I
