I just spoke to Kay with State Oil Reports regarding M & W of Lovington. She spoke to you earlier about API 025-27234 being under pool 75160 on her C-104 and that is how she is reporting it. When I did some research I found in in ONGARD under 66253. She tells me you gave her a pool of 4967 Baum, Wolfcamp; south.  
Could you please let me know when you change it in the system. I only have till Friday to correct this error.

*Make 104 eff 8-1-93 for pool*

*I can add pool: cannot merge prod  
but if prod not going in, S.C. can  
"adjust" manually*
