Yes, Gandy has a bond in place. Also, according to our records, the name of the well should be Quality Brine Watson #1. I don't see this well in ONGARD. Are you going to set it up? If so, let me know when you do so I can attach the well to the Brine Discharge Plan in RBDMS.

Also, I think that takes care of all the brine wells I asked you about. Thanks very much for the help. I owe you a lunch next time I'm down there. You pick the place.

Does that get all the brine wells with api #?

There is a brine well B & E Inc, Watson Treating Plant #1-M, 20-12s-36e
API #30-025-28162

We have a c-104 change of operator to Gandy Corp.

This was received May 19, 2000. No bond at that time. Do they have a bond now? Let me know. Thanks
