Verbal permission was granted on September 28, 1984, to shut the well in for 60 days. This was done so that we could evaluate the possibility of deepening the well to the Devonian formation. This 60-day period will expire toward the end of November. We respectfully request an additional 60 days to complete our feasibility study and obtain proper governmental and company approvals. We feel as though we will be able to complete our study and commence operations one way or the other within this 60-day period.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
