Re: Sunburst State #1-N
Section 11, T14S, R32E
Lea County, New Mexico
Baum Upper Penn

Dear Mr. Sexton:

Regarding your letter of June 5, 1985 (copy attached), the surface lessee (Billy Frank Good) will not permit a gas line to be connected to this well. At this time, the well is producing approximately 10 MCFPD and all produced gas is being used to operate the engine on the pump jack. If the gas production increases in the future, we will notify you.

Thank you for your continued cooperation with Manzano.

Sincerely,

Ms. Jackie Midkiff

Re: Flaring of Casinghead Gas

Gentlemen:

According to our records, permission to flare casinghead gas from your well/wells listed below has expired. Please, therefore, submit the enclosed Forms C-129 in triplicate requesting an exception to Division Rule 306.

Sunburst State 1-N 11-14-32 Baum Upper Penn

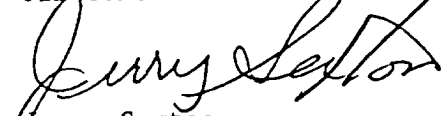

Sunburst Cox 1-C 36-10-32 Cuerno Largo

Amoco State 1-G 13-20-35 Eumont

In the event that the gas has been connected to a gathering facility, please submit Form C-104 designating the purchaser and showing the connection date, rather than Form C-129.

Yours very truly

OIL CONSERVATION DIVISION
