Yates Petroleum Corporation 105 South 4th Street Artesia, NM 88210

Attn: Mr. M. W. Slater

Re: Dove VK State Well #5 Unit 0, Sec 3, T14S, R33E Lazy J Penn Pool

Gentlemen:

Your proposal to add Permo Penn (Wolfcamp) perfs 9400-9815 to the abovereferenced well has been received. According to our records this well currently produces from the Lazy J Penn through perfs 9857--10,002 (Upper Penn). Our Geologist, Paul Kautz, indicates the top of the Penn in this well is 9665' so your proposal 9400-9815 would be perforated in both Wolfcamp and Penn.

In order to produce these zones together you will need to have a downhole commingle order. You may wish to get this approved before you do this work in order to avoid having to keep the well shut in for so long after the recompletion work is done.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton Supervisor, District I
