Re: Lowe "25" #1-E, Sec. 25, T13S, R37E  
API #30-025-33002

Gentlemen:

The application to drill on the above referenced well is approved for drilling only, as stated verbally by David Catanach on June 23, 1995.

Prior to any production from the well, an order for a non standard surface location at 2105 feet from the north line and 60 feet from the west line (Unit E), Section 25, Township 13 South, Range 37 East, confirming the bottom hole location, must be approved.

Diane Richardson has given verbal approval for the \$13,000.00 (one well) plugging bond, with the stipulation that the location be corrected from Section 25, Township 13 South, Range 33 East, to Section 25, Township 13 South, Range 37 East. We have received assurance from Mark Garrett that he is faxing the information for correction to be added as a rider to the plugging bond to Diane Richardson this date.

Very truly yours
