FULL DETAILS OF PROPOSED PLAN OF WORK

(FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS)

Subject well was prepared for temporary abandonment October 26, 1956, after having been drilled with cable tools to a depth of 45 feet. No zone productive of oil, gas, or water had been penetrated, and no casing had been set in the hole. Well was filled to within 9 feet of the surface with drilling mud. A 7 foot cement plug was run to bottom of the collar, and then the cellar was filled to ground level with dirt. Working pit has been filled and location cleared of junk. It is now proposed to transfer this well's status from Temporarily Abandoned to Permanently Plugged and Abandoned.

A steel pipe stenciled marker will be set and cemented upright in the hole in accordance with Rule 202. Copies of this intent are being mailed to the following offset lessees: Ohio Oil Company, Southern Petroleum Exploration, Inc., and Magnolia Petroleum Company, all of Roswell, New Mexico.
