Re: Campana #1 Federal
'C', Sec. 10, T7S,
R32E, Roosevelt Co.

Gentlemen:

The captioned well, originally drilled and completed as a Devonian well by Amerada Petroleum Company, has been completed as a Pennsylvanian (Bough C) producer from perforations from 8380 to 8390 feet.

Due to the expense involved, the reserves and the fact which has been established that this formation will sufficiently drain an area in excess of forty acres, we hereby request a spacing of eighty acres to be assigned to each well drilled or to be drilled in this field (the Squyres Penn. (Bough C) Field.) .

Thank you for your kind consideration.

Sincerely yours

Campana Petroleum Co.
