RE: William J. Peterman - \$5,000 one-well
bond - 38 1/4 NW 1/4 section 22, T.2 S, R.30 E.

Dear Sir:

With reference to your letter of June 24, we have received a report from our Hobbs engineer that there is an uncased and unplugged hole which contains fluid approximately 200 feet from the surface. Neither do our records reflect that Peterman, Taylor No. 1-A was ever properly plugged.

Inasmuch as four wells in all were drilled on this quarter section and only two appeared to have been plugged properly, we believe it will be necessary to await further work before this bond can be released.

Very truly yours,

bpw

Secretary and Director
