

**NEW MEXICO OIL CONSERVATION COMMISSION**  
**Santa Fe, New Mexico**

**MISCELLANEOUS NOTICES**

Submit this notice in **TRIPLICATE** to the District Office, Oil Conservation Commission, before the work specified is to begin. A copy will be returned to the sender on which will be given the approval, with any modifications considered advisable, or the rejection by the Commission or agent, of the plan submitted. The plan as approved should be followed, and work should not begin until approval is obtained. See additional instructions in the Rules and Regulations of the Commission.

OIL CONSERVATION COMMISSION  
 SANTA FE, NEW MEXICO

**Hobbs, New Mexico**  
 (Place)

**August 16, 1954**  
 (Date)

Gentlemen:

Following is a Notice of Intention to do certain work as described below at the.....

**Makin Drilling Company (Charles P. Miller, Agent)** Well No. **1** in **G** (Unit)  
 (Company or Operator)  
**SW 1/4 NE 1/4** of Sec. **29**, T. **53**, R. **37E**, NMPM., **Wilcox** Pool  
 (40-acre Subdivision)  
**Reconalt** County.

**FULL DETAILS OF PROPOSED PLAN OF WORK**  
 (FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS)

**Total depth of hole was reached on January 6, 1954. Water; with no shows of oil or gas; was found in the San Andres formation. A decision was made to temporarily abandon the hole while working out plans to carry it on down as a deep test. Permission was obtained verbally to carry out this plan.**

**Inasmuch as a string of casing is cemented approximately 155 feet into the San Andres and there were no shows of oil or gas found below the casing point we feel that the Sulphur water which was found near the bottom of the hole is being confined to its strata and is doing no damage to the formation.**

**Plans for deepening this test are still definitely under way and we request that the verbal approval for temporary abandonment be honored until we can work out our plans.**

Approved....., 19.....  
 Except as follows:

Approved
