Dear Mr. Gardner:

We have been advised by Mr. E. L. Wilkens that your Engineer, Mr. Robert Blymn, had approved the abandonment of the above well and that Form No. C-103 was in order for approval. This information was passed to us several weeks ago, and we have not as yet received this approved form.

Will you please check into the matter and forward the same to us so that we can close our file on this operation.

Dear Mr. Wilkens:

Our Engineer, Mr. Robert Blynn, visited the location of the above mentioned well yesterday. He found that the marker had not been cemented, cellar was not filled, rat hole and mouse hole were not plugged and the reserve pit not filled.

It is necessary that this work be done before the Form C-103 will be in order for approval.

Will you please advise us as soon as the work is done so we may again check the location to avoid any further delay in final plugging approval.

Very truly yours,

OIL CONSERVATION COMMISSION
