Re: C.H. OSMOND, # 1 Haynes
Sec. 24, T.1. N. R. 36 E.
Roosevelt County, N. Mex.

Dear Bob:

Regarding the above location I have gone and had the holes filled and the cellar and marker cemented and filled over to ground level, the reserve pit being spread and all placed to approximate original ground contour. The above was in accordance with your letter of October 19th and to the surface owners satisfaction, who approved the work and released C.H. Osmond ~~Ltd.~~ of all ~~damages~~, since he supervised the work.

Trust that you had a good week-end and got your share of the deer.

Respectfully,

Ed Wilkens
