

The sketch on this sheet depicts a true deduction from a survey which I did on the ground according to law on March 9, 1950 which survey was done for the purpose of showing the true location of an old oil well situated in the Northwest $\frac{1}{4}$ of the Southeast $\frac{1}{4}$ of the Southeast $\frac{1}{4}$ of Section 28 in Township 5 South of Range 30 East, N. M. P. M., near the town of Kenna, Roosevelt County, New Mexico.

This survey as sketched on this sheet shows a new well location situated 100 feet East of old well location being in same said subdivision of same said section, township, and range.

This sketch was prepared on June 27th, 1950 solely as a deduction from the said former survey.
