Re: Lambirth State #1-H, Sec 36, T5S, R32E

Gentlemen:

Our records show that you recently purchased the above referenced well, permitted as a salt water disposal well by Division Order SWD-535.

Although the permit has been approved, we do not have a record of the actual conversion nor a chart showing an annulus pressure test on this well.

If the well is currently being used for disposal purposes, we request that you submit the following information:

- 1> The original chart if a pressure test has been conducted.
- 2> A sundry notice (C-103) containing the following items:
 - a> Any repairs and/or procedures necessary to bring the wellbore into a satisfactory condition for use as a salt water disposal well.
 - b> Tubing size.
 - c> Packer type and setting depth.
 - d> Date of first injection into the well.

If you have not converted the well, we request that you notify this office 24 hours prior to any workover procedures or the pressure test required by the SWD order.

Very truly yours

OIL CONSERVATION DIVISION
