Midland, TX 79702

Gentlemen:

According to the provisions of Division Order R-5353-I and effective December 1, 1981, South Peterson Pennsylvanian Pool was reclassified to an associated pool with special rules providing for oil proration units of 40 acres and gas proration units of 320 acres and a limiting gas-oil ratio of 4000 to 1.

Your gas wells listed below have been placed in the South Peterson-Pennsylvanian Associated Pool.

Miller Com #1-M	Sec 12, T6S, R33E
Radcliff #1-E	Sec 30, T5S, R33E
Crume #1-C	Sec 13, T6S, R33E

The order specifies that you have 60 days in which to submit a new Form C-102 dedicating 320 acres to these wells or obtain a non-standard proration unit approved by the division. We will need a revised plat for your Miller Com #1 and your Radcliff #1. Our records show you have 320 acres dedicated to the Crume #1 well.

Please amend your records to show this change.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton  
Supervisor, District I
