Re: Carmichael #1-J
Section 29, T5S, R31E

Gentlemen:

We have had a request from our Santa Fe office to verify the cleanup of the above-referenced plugged well in order that your plugging bond can be released.

We made a visual inspection of the location recently and everything appears to be in good shape, except that there is a fence around the location. We tried to contact Mary Stokes to verify if this was as she wanted it left but have been unable to contact her.

If you will have Mary Stokes furnish us with a letter stating that the location is acceptable to her with the fence in place, we will be glad to release the plugging bond for this well.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I
