Dear Jeff:

I recommend the Casa Petroleum, Inc. Peterson #1-F, located 1980/N and 1980/W, Section 17, T4S, R33E, Roosevelt County, New Mexico be set for hearing in order that the well can be plugged.

Casa drilled the well in 1984 and never did file any completion reports. We have called and written the operator requesting that these reports be filed and have had no response. The other properties operated by this company have been taken over by other operators and the bonding company has requested cancellation of the bond for this well.

Copies of correspondence concerning this are attached for your information. If you have questions, please call.

Very truly yours,

OIL CONSERVATION DIVISION
