Re: Spradlin #1-I  
Section 2, T2N, R29E  
Roosevelt County, NM

Gentlemen:

According to Petroleum Information the above-referenced well was drilled and completed as a temporarily abandoned well in December 1987.

Our records indicate you have not filed any reports since you filed the revised C-101 to correct the proposed casing program. Rule 1103 requires that you file a C-103 covering spudding, cementing, WOC, and testing of all strings of casing. Rule 1105 requires that you file Form C-105 accompanied by deviation tests, DST's, logs, and request for allowable, Form C-104, or intent to plug or TA, Form C-103, within 20 days after completion.

We request that these delinquent reports be filed immediately. If you have questions, please contact Evelyn Downs at (505) 393-6161.

Very truly yours,

OIL CONSERVATION DIVISION
