Re: State A #1
Sec. 1-16S-32E

Gentlemen:

A check of the file on your State A #1 well in Section 1-16S-32E shows that we have received no reports from this well since Form C-103, Report on Acidizing and Perforating, was approved on April 9, 1954.

Please refer to Rule 202 (c) of the Oil Conservation Commission Rules and Regulations which provides that "When drilling operations have been suspended for 60 days, the well shall be plugged and abandoned unless a permit for temporary abandonment shall be obtained from the Commission".

Your prompt attention in filing the correct forms for this location will be greatly appreciated.

Yours very truly,

OIL CONSERVATION COMMISSION

A. L. Porter, Jr.
