12. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

On or about 1/16/97 in the AM, a release of an estimated 40 bbls of fluid (20 bbls oil, and 20 bbls water) occurred at the subject facility. Site personnel discovered flowline leak as a result of a frozen line at the facility. The site pumper called a vacuum truck and backhoe to the site. 35 bbls of free product was recovered and returned to the tank battery. The backhoe scraped and removed the remaining effected soil for on-site remediation when the weather permits. The spill effected approximately 375 square feet of the lease road and bar ditch. A swath of 75' X 5' on the road and ditch was effected. UMC notified the State at the Hobbs district office on 1/17/97 at 10:35 AM, and reported the release to Bonnie Prichard of the Hobbs District office.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
