Re: Blanco Engineering, Inc. NM "S" No. 1 well
North Anderson Wolfcamp

Dear Jerry:

In researching the rules for unorthodox locations I quote from the manual "The Division Director shall have authority to grant an exception to well location requirements if the unorthodox location is based upon the recompletion of a well previously drilled to a deeper horizon, provided said well was drilled at an orthodox or approved unorthodox location for such original horizon".

This well produced from the North Anderson Ranch Wolfcamp Field for many years and must have been approved.

Thank you for your help.

Respectfully,

Paul
