Re: Intention to Plugback
New Mexico S #1-B
Section 2, T16S, R32E

Gentlemen:

More than six months have elapsed since the intention to plug back the above-referenced well from the Cisco-Canyon to the Wolfcamp formation was approved. To date no progress reports have been received. Therefore, this proposed recompletion is considered cancelled. If in the future you desire to plug back and recomplete this well, please resubmit.

Very truly yours,

OIL CONSERVATION DIVISION
