Attention Mr. A. L. Porter

Dear Sir:

In reply to your letter dated August 10, 1955 regarding abandonment of State Land No. 1, well number 1 & 2, it is apparently the intention of Sunray Mid-Continent Oil Company to deepen one of these wells to test the Devonian formation.

This proposal has been recommended to the management, and I am sure we will have a decision as to action to be taken on these wells soon.

Yours truly,

E. E. Kennedy
