Gentlemen:

Att: Mr. R. F. Montgomery
Re: State B-1, Unit P
1-17-32, Lea County.

We do not find a copy of Form C-103 in our files that supposedly was filed in July of 1950, so apparently filing the instrument was overlooked.

We have gone back to our 1950 files and pulled invoices, etc., that gave us the information to complete this form and enclose herewith the proper form in triplicate, together with copy of invoice from Mr. F. G. Jeffers, Burkburnett, Texas, who plugged the well for us under the supervision of Mr. Anderson who was with us at that time. It is just possible that Mr. Jeffers was to file the plugging report for us and overlooked the matter. The enclosure, however, should clear your records on this well.

The SE/4 of Section 1-17-32 was reassigned to the Phillips Petroleum Company after the well was plugged with their permission.

Should you need additional information, please advise.

Yours very truly

C. T. McLaughlin..
