Dear Sir:

We have just received your Form C-101, Notice of Intention to Drill, State #1, Sec. 2, T. 17S, R. 32E, Lea County, New Mexico.

I cannot approve your casing program on this well. It will be necessary for you to use approximately 260' of surface casing to protect the fresh water section or cement the 8 5/8" casing with an adequate amount of cement to circulate back to surface.

Your Bond has been mailed to Santa Fe and we are holding your Notice of Intention to Drill pending approval of the bond. In the meantime will you please advise the oasing program you will use.

Very truly yours,

011 Conservation Commission

Dear Sir:

Confirming our conversation with your office today, we will set a mid-string of pipe at approximately 1200 feet and will use adequate cement to cement from top to bottom.

It is, therefore, requested that you correct our application on your Form C-101 covering the drilling of the State #1, Section 2, Township 17 South, Range 32 East, Lea County, New Mexico.

This is in accordance with your letter of February 4th.

Yours very truly, G. H. VAUGHN
