(Other) ☐	X																								
17. SUMMARY OF OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface headings and measured and true vertical depths for all markers and other pertinent data to this work.)																									

Filed in accordance with the New Mexico Oil Conservation Commission letter dated September 13, 1974, regarding notification of status of inactive wells.

The temporary abandonment of this injection well commenced on July 1, 1971 due to lack of response to water injection. Present plans call for this well to be plugged and abandoned before November 1, 1976.

18. I hereby certify that the foregoing is true and correct
