Attention: Mr. R. A. McGill, District Superintendent

Gentlemen: Re: State "O" No. 4. SNW 16-175-32E

You may consider this letter as official confirmation of agreement to your request that you be permitted to deviate from Rules 401 and 402 of the Oil Conservation Commission--namely, the requirements for semi-annual static bottom-hole pressure tests and for 24-hour back pressure potential tests.

As expressed in your letter of March 26, the taking of such tests would result in considerable inconvenience on the lease served by the above-captioned well, the gas from which is used for lease purposes only. We recognize this problem and grant permission accordingly.

Very truly yours,

R. R. Spurrier
Secretary - Director
