17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

In connection with the MCA Unit Waterflood it is proposed to convert the subject well to water injection using the following procedure:

1. Clean out to PBD of 4086' or to TD of 4144' if possible to obtain circulation.
2. Set 2 3/8" tubing W/retrievable packer at approx. 3700'.
3. Connect up well for water injection down tubing.

The USGS office in Roswell has granted approval for this conversion. Your approval to the above work is requested.

18. I hereby certify that the foregoing is true and correct
