Change in Transporter of (Check One): Oil ☒ Dry Gas ☐ C'head ☐ Condensate ☐

Change in Ownership ☐ Other ☐

Remarks: (Give explanation below)
The Wolfcamp zone in this well has been temporarily plugged off and testing of the Abo zone is in progress. On initial tests the Abo zone has produced excessive amounts of water with the oil. Attempts are being made to reduce the water production in order to obtain a stabilized water free production test. It is requested that a testing allowable of 2000 barrels oil be granted for the Abo zone to be deducted from the well's allowable when completed in the Abo zone.

The undersigned certifies that the Rules and Regulations of the Oil Conservation Commission have been complied with.

Executed this the 16 day of September 19 59
