 13. Describe Proposed or Completed C give subsurface locations and The casing integri A recent recomplet and a significant 	perations (Clearly state all pertinent deta measured and true vertical deputs for a ty test approved by ion in another MCA w	Altering Casing Do CIT Test as Other Do CIT Test as Previously Appendix and give pertinent dates, including estimated d all markers and zones pertinent to this work.)* an NOI on 7/8/94 will well has established Ouco	be perfor	Conversion to Injection Dispose Water (Note: Report results of multiple completion on W Completion or Recompletion Report and Log for proposed work. If well is directionally dri med by 7/1/95. tion in the MCA Unit
 13. Describe Proposed or Completed C give subsurface locations and The casing integri A recent recomplet and a significant 	perations (Clearly state all pertinent deta measured and true vertical deputs for a ty test approved by ion in another MCA w	Altering Casing Do CIT Test as Other Do CIT Test as Previously Appendix and give pertinent dates, including estimated d all markers and zones pertinent to this work.)* an NOI on 7/8/94 will well has established Ouco	be perfor	Conversion to Injection Dispose Water (Note: Report results of multiple completion on W Completion or Recompletion Report and Log for proposed work. If well is directionally dri med by 7/1/95. tion in the MCA Unit
 13. Describe Proposed or Completed C give subsurface locations and The casing integri A recent recomplet and a significant 	perations (Clearly state all pertinent deta measured and true vertical deputs for a ty test approved by ion in another MCA w	Altering Casing Do CIT Test as Other Do CIT Test as Previously Appendix and give pertinent dates, including estimated d all markers and zones pertinent to this work.)* an NOI on 7/8/94 will well has established Ouco	be perfor	Conversion to Injection Dispose Water (Note: Report results of multiple completion or W Completion or Recompletion Report and Log for proposed work. If well is directionally dri rmed by 7/1/95. tion in the MCA Unit studied and Conversion Conversion to Injection Conversion to Injection
 13. Describe Proposed or Completed O give subsurface locations and The casing integri A recent recomplet and a significant 	perations (Clearly state all pertinent deta measured and true vertical deputs for a ty test approved by ion in another MCA w	Altering Casing Do CIT Test as Other Do CIT Test as Previously Appendix and give pertinent dates, including estimated d all markers and zones pertinent to this work.)* an NOI on 7/8/94 will well has established Ouco	be perfor	Conversion to Injection Dispose Water (Note: Report results of multiple completion on W Completion or Recompletion Report and Log for proposed work. If well is directionally dri med by 7/1/95. tion in the MCA Unit
 13. Describe Proposed or Completed O give subsurface locations and The casing integri A recent recomplet and a significant 	perations (Clearly state all pertinent deta measured and true vertical deputs for a ty test approved by ion in another MCA w	Altering Casing Do CIT Test as Other Do CIT Test as Previously Appendix and give pertinent dates, including estimated d all markers and zones pertinent to this work.)* an NOI on 7/8/94 will well has established Ouco	be perfor	Conversion to Injection Dispose Water (Note: Report results of multiple completion or W Completion or Recompletion Report and Log for proposed work. If well is directionally dri rmed by 7/1/95. tion in the MCA Unit studied and Conversion Conversion to Injection Conversion to Injection
 13. Describe Proposed or Completed C give subsurface locations and The casing integri A recent recomplet and a significant 	perations (Clearly state all pertinent deta measured and true vertical deputs for a ty test approved by ion in another MCA w	Altering Casing Do CIT Test as Other Do CIT Test as Previously Appendix and give pertinent dates, including estimated d all markers and zones pertinent to this work.)* an NOI on 7/8/94 will well has established Ouco	be perfor	Conversion to Injection Dispose Water (Note: Report results of multiple completion or W Completion or Recompletion Report and Log for proposed work. If well is directionally dri rmed by 7/1/95. tion in the MCA Unit studied and Conversion Conversion to Injection Conversion to Injection
 13. Describe Proposed or Completed O give subsurface locations and The casing integri A recent recomplet and a significant 	perations (Clearly state all pertinent deta measured and true vertical deputs for a ty test approved by ion in another MCA w	Altering Casing Do CIT Test as Other Do CIT Test as Previously Appendix and give pertinent dates, including estimated d all markers and zones pertinent to this work.)* an NOI on 7/8/94 will well has established Ouco	be perfor	Conversion to Injection Dispose Water (Note: Report results of multiple completion or W Completion or Recompletion Report and Log for proposed work. If well is directionally dri rmed by 7/1/95. tion in the MCA Unit studied and Conversion Conversion to Injection Conversion to Injection
 13. Describe Proposed or Completed O give subsurface locations and The casing integri A recent recomplet and a significant 	perations (Clearly state all pertinent deta measured and true vertical deputs for a ty test approved by ion in another MCA w	Altering Casing Do CIT Test as Other Do CIT Test as Previously Appendix and give pertinent dates, including estimated d all markers and zones pertinent to this work.)* an NOI on 7/8/94 will well has established Ouco	be perfor	Conversion to Injection Dispose Water (Note: Report results of multiple completion or W Completion or Recompletion Report and Log for proposed work. If well is directionally dri rmed by 7/1/95. tion in the MCA Unit studied and Conversion Conversion to Injection Conversion to Injection
 Describe Proposed or Completed O give subsurface locations and The casing integri A recent recomplet and a significant evaluated for Queen 	Aperations (Clearly state all pertiment deta measured and true vertical depths for a ty test approved by ion in another MCA w portion of the unit, n potential.	Altering Casing Do CIT Test as Other Do CIT Test as Previously Appendix and give pertinent dates, including estimated d all markers and zones pertinent to this work.)* an NOI on 7/8/94 will well has established Ouco	be perfor	Conversion to Injection Dispose Water (Note: Report results of multiple completion or W Completion or Recompletion Report and Log for proposed work. If well is directionally dri rmed by 7/1/95. tion in the MCA Unit studied and Conversion Conversion to Injection Conversion to Injection
13. Describe Proposed or Completed O give subsurface locations and The casing integri A recent recomplet and a significant evaluated for Queen	perations (Clearly state all pertinent deta measured and true vertical depths for a ty test approved by ion in another MCA w portion of the unit, n potential.	Altering Casing Do CIT Test as Other Do CIT Test as Previously Appendix and give pertinent dates, including estimated d all markers and zones pertinent to this work.)* an NOI on 7/8/94 will well has established Ouco	taxe of starting any be perfor en product eds to be	Conversion to Injection Dispose Water (Note: Report results of multiple completion or W Completion or Recompletion Report and Log for proposed work. If well is directionally dri rmed by 7/1/95. tion in the MCA Unit studied and Conversion Conversion to Injection Conversion to Injection
 13. Describe Proposed or Completed Ogive subsurface locations and The casing integri A recent recomplet and a significant evaluated for Queer 14. I hereby serify that the foregoing Signed	perations (Clearly state all pertinent deta measured and true vertical depths for a ty test approved by ion in another MCA w portion of the unit, n potential.	Altering Casing Other Do CII Test as Previously App alls, and give pertinent dates, including estimated d all markers and zones pertinent to this work.)* an NOI on 7/8/94 will well has established Quee , including this well, new file Sr. Conservation Coo	be perfor en product eds to be	Conversion to Injection Dispose Water (Note: Report results of multiple completion on W Completion or Recompletion Report and Log for proposed work. If well is directionally dri rmed by 7/1/95. tion in the MCA Unit studied and 5/24/95
 13. Describe Proposed or Completed C give subsurface locations and The casing integri A recent recomplet and a significant evaluated for Queet 14. I hereby certify that the foregoing Signed I hereby certify that the foregoing Signed Critic part for Federal State S Approved by 	perations (Clearly state all pertinent deta measured and true vertical deputs for a ty test approved by ion in another MCA w portion of the unit, n potential.	Altering Casing Other Do CII Test as Previously App alls, and give pertinent dates, including estimated d all markers and zones pertinent to this work.)* an NOI on 7/8/94 will well has established Quee , including this well, ne	be perfor en product eds to be	Conversion to Injection Dispose Water (Note: Report results of multiple completion on W Completion or Recompletion Report and Log for proposed work. If well is directionally dri rmed by 7/1/95. tion in the MCA Unit studied and 5/24/95
 13. Describe Proposed or Completed Orgive subsurface locations and The casing integri A recent recomplet and a significant evaluated for Queen 14. I hereby certify that the foregoing Signed Control of State of Control of Control of State of Control of	perations (Clearly state all pertinent deta measured and true vertical deputs for a ty test approved by ion in another MCA w portion of the unit, n potential.	Altering Casing Other Do CII Test as Previously App alls, and give pertinent dates, including estimated d all markers and zones pertinent to this work.)* an NOI on 7/8/94 will well has established Quee including this well, ne	be perfor en product eds to be	Conversion to Injection Dispose Water (Note: Report results of multiple completion on W Completion or Recompletion Report and Log for proposed work. If well is directionally dri rmed by 7/1/95. tion in the MCA Unit studied and 5/24/95
 13. Describe Proposed or Completed Ogive subsurface locations and The casing integri A recent recomplet and a significant evaluated for Queet 14. I hereby seriis that the foregoing Signed	perations (Clearly state all pertinent deta measured and true vertical deputs for a ty test approved by ion in another MCA w portion of the unit, n potential.	Altering Casing Other Do CII Test as Previously App alls, and give pertinent dates, including estimated d all markers and zones pertinent to this work.)* an NOI on 7/8/94 will well has established Quee including this well, ne	be perfor en product eds to be	Conversion to Injection Dispose Water (Note: Report results of multiple completion on W Completion or Recompletion Report and Log for proposed work. If well is directionally dri rmed by 7/1/95. tion in the MCA Unit studied and 5/24/95
