13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Conoco requests renewal approval of Temporary Abandonment status for the above referenced well. A new, valid MIT was run on 3/23/01 and is attached.

We wish to retain this wellbore for recompletion potential in the Queen, Seven Rivers and Yates formations. The production casing in this well is cemented to surface and the well is in good mechanical condition. Although Conoco does not have current plans to recomplete this well, other wells in the area will be tested later this year and will help quantify this potential.

Renewal of Temporary Abandonment Status 5/3/06
