17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

The electric motor on this well is in need of repairs. The well has declined in production to 2 BOPD and 85 BWPD and the cost of repairs to the electric motor would be uneconomical. This well was shut-in on March 29, 1971. This well has remained shut-in the entire month of July, 1971 for reason as above.
