17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

It is proposed to convert this well to a water injection well in conjunction with the MCA Unit Waterflood. 8 5/8" casing is set at 1266' and 7" casing is set at 3918'. It is proposed to set 2 3/8" tubing and a production packer at 3857' and inject water into the San Andres horizon.

Your approval of the above work is requested.

18. I hereby certify that the foregoing is true and correct

Item 4: If there are no applicable State requirements, locations on Federal or Indian land should be described in accordance with Federal requirements. Consult local State or Federal office for specific instructions.

Item 17: Proposals to abandon a well and subsequent reports of abandonment should include such special information as is required by local, Federal and/or State officials. In addition, such proposals and reports should include reasons for the abandonment; data on any former or present productive zones, or other zones with present significant fluid contents not sealed off by cement or otherwise; depths (top and bottom) and method of placement of cement plugs; kind or other material placed below, between and above plugs; amount, size, method of parting of any casing, liner or tubing packed and the depth to top of any left in the hole; method of cleaning top of well; and date well shut in and conditioned for final inspection looking to approval of the abandonment.
