(Meridian)Las Cruces NM New Mexico
(County or Subdivision) (State or Territory)The elevation of the derrick floor above sea level is 2000 ft.

DETAILS OF WORK

(State names of and reported depths to which casing, tubing, and lengths of proposed casings; indicate mudding jobs, cementing jobs, and all other important work)

It is planned to convert Well No. 22 from a producing status to a gas lift status in conjunction with the overall secondary recovery program being run by the Las Cruces Division. Attention is directed to Form 9-331A, filed March 26, 1952, for details of the proposed project.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
