13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Conoco plans to permanently abandon the Grayburg/San Andres completion in the MCA Unit No. 209 water injection well by setting a cement retainer above a stuck packer and squeezing below the retainer with 45 sx Class "C" neat cement. The cement retainer will be set right above the packer between 3350' and 3375' and capped with 5 sx (100') of cement. Verbal approvals for this work were received from the BLM and NMOCD on 12/21/00, via telephone. A notice of Intent to Plug and Abandon the well will be forthcoming.
