13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

It is proposed to perform a casing integrity test on this well in preparation for temporary abandonment.

An extensive study of the Maljamar area will be begun shortly including the interpretation of a recent 3-D seismic survey and this well needs to be retained until the potential of deeper zones has been evaluated.
