Mr. Jerry Sexton
Oil Conservation Division
P.O. 1980
Hobbs, New Mexico 88241

Dear Mr. Sexton:

Exception to Packer Setting Depth
MCA Unit #159-H Sec. 30, T-17S, R-32E

Attached is a copy of a recent injection profile for the above subject well as requested in your letter of September 9, 1991 (copy attached). This profile, which was run after setting the packer at 3405' (242' above the casing shoe) shows that all injected fluid is being contained within the unitized interval.

Thank you for your assistance in this matter.

Very truly yours,

Jerry W. Hoover
Senior Conservation Coordinator
