## 17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting or proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

This well was converted to water injection by the following procedures. Verbal approval to convert this well was given by Mr. Gordon on February 17, 1969:

attempting to clean-out when a casing leak was detected. The 5 1/2" casing was squeezed with 125 sacks of cement. Drilled out cement and attempted to clean-out to TD. Found fish in hole and attempted to remove fish. Unable to remove fish, ran 2 3/8" 1-5.5 cement lined tubing with packer. Set packer at 3475' and commenced injection on 3-2-70. Injected 800 BWPD with no pressure.

18. I hereby certify that the foregoing is true and correct
