Re: State MA "E" #1
Section 36, T-17S, R-32E
Lea County, New Mexico

Gentlemen:

From information obtained from Logs and Drill-Stem Tests, the Operators decided to run casing on this well, with the intention of salvaging as much casing as possible if it should turn out to be non-commercial.

If a commercial well results, the casing will be perforated at the present cement top and cemented to the intermediate string.

Yours very truly,

CARPER DRILLING COMPANY, INC.
