1. *Pharmaceuticals*—The pharmaceutical industry is the largest and most profitable of the major industries in the United States. It is a highly competitive industry with a high degree of innovation. The industry is characterized by a high degree of concentration, with a few large firms dominating the market. The industry is also characterized by a high degree of regulation, with the Food and Drug Administration (FDA) overseeing the safety and efficacy of drugs. The industry is also characterized by a high degree of research and development, with a large portion of the industry's revenue being spent on R&D.
