5. Form C-102 reflecting the dedicated proration unit, and an area plat reflecting lease location and offset ownership are enclosed.
6. Offset owner(s)/operator(s) of the Morrow zone have been notified of this application by certified mail. Their waivers are hereby requested.
7. Statewide Rule 104 (F) provides for the requested administrative action on exceptions to Sections B and C of said rule where circumstances are as those cited above.

It is understood that the current completion will be assigned to "Undesignated-Morrow-Gas" classification for current proration purposes.

Your consideration and approval will be appreciated.

Very truly yours,

T. Harold McLemore
